*If you are looking for the opportunity to see and hunt big bucks, then Kentucky Trophy Deer is the hunting preserve for you! Our team is fully committed to providing you the “Ultimate Whitetail Hunting Experience”. During your visit you will see bucks fighting, rubbing trees, making scrapes and even chasing does. Our herd management and genetic development programs have allowed us to produce and offer some of the biggest and best whitetail hunting in North America.*

*Our remote location and attention to detail, combined with some of the largest whitetail deer you will ever see, is what keeps our clients coming back year after year.*

*The property consists of mature timber ridges, hardwood cutovers and has numerous streams, lush food plots and fruit tree stands scattered throughout. Dozens of stands are positioned throughout this diverse terrain along bottlenecks, funnels, fields and edges of bedding areas. Deer have plenty of thick cover in which to hide and hunting pressure is kept to a minimum.*

*Guests can choose to use a rifle, bow, shotgun, muzzleloader, pistol or crossbow during their stay. All of our hunting is done from elevated box blinds, ground blinds and ladder stands. Our hunting preserve offers numerous whitetail trophy buck hunting opportunities. Whether you are a first time hunter or an experienced one, we guarantee that hunting with us will be the best hunting trip you've ever had.*

*After a day in the woods in pursuit of your trophy buck, we have lodging that offers you the comfort of home away from home, yet only a short walking distance from the numerous hunting stands at our preserve. Relax and enjoy home cooked meals, a beautiful stone fireplace and breathtaking scenery.*

*We look forward to hunting with you this season. We know that after one trophy, you will be back to hunt with us year after year.*
